

# DECKING & RAILING

Our composite decking and railing is of the highest quality. Fiberon and Envision decking utilizes hardwood wood fiber allowing greater spans and strength compared to those of a box store. Afco and Color Guard railings allow for exceptional versatility. Both brands allow for 10' rail lengths that meet code, thus meaning less posts and sight obstructions.

## FIBERON COMPOSITE DECKING

Featured above is Fiberon's Goodlife Escapes collection in Tuscan Villa. The Goodlife collection is Fiberon's entry line with a scallop back. Their scallop back product allows for hidden fasteners as well as enough board to screw and plug. The Escapes collection offers a 30 year fade and performance warranty.

## ENVISION COMPOSITE DECKING

Are you an HGTV addict? If so you probably recognize these folks. Yes, Mika and Brian are users and fans of the Envision deck line. Let us help you get your Envision decking done in less than 100 days!

## AFCO ALUMINUM RAILING

Afco railing is a fully powder coated aluminum. With several color offerings this component based rail system allows you to mix and match colors. Their posts are a slim 3"x3" structural post that mounts directly to your wood framing. Additionally, with a slimmer baluster Afco railing give you better sightlines.

### **COLOR GUARD RAILING**

Color Guard railing offers an easy install vinyl railing at an affordable price. With options to span 10' and still be code compliant, they are definitely one to check out.

### **ENVISION COMPOSITE DECKING**

With stocking warehouses nearby we can see your dream composite deck in days! Featured above is Envision's Ridge Premium in Vintage Oak. Their scallop back offers superior strength due its compression build rather than a set mold. Ridge Premium is also their most economical deck board starting at around \$2.50/LF.

### **FIBERON COMPOSITE DECKING**

Fiberon's Sanctuary line offers a full square board that is capped on 3 sides. with 5 color options in multi-tone colorings. These boards allow for a hidden fasten as well as a screw and plug application. Fiberon's Sanctuary line offers a 40 year fade and performance warranty.
